

Sinclair Broadcasting has no right to use the public airwaves free of charge, call their propaganda news and air partisan programs that are NOT news.

They are obligated by law to serve the public interest. If they choose to balance showing their anti Kerry mockudrama before an election, they are violating the laws governed by the FCC. I ask that the FCC enforce existing law designed to protect the public to stop this media giant from abusing the public trust.

Sinclair's license renewal should be endangered by their not obeying existing rules governing the public airwaves.

Please respond to my email by taking action and issuing a cease and desist for this program. Thank you. PH Patrikios
